

EXHIBIT B – GOVERNMENT ADVISORY COMMITTEE SAFEGUARDS

By resolution on February 5, 2014, the ICANN Board New gTLD Program Committee identified and mandated certain additional safeguards for this top-level domain. Accordingly, for this highly-regulated TLD, Registrar must expressly include in its electronic or paper registration agreement (the “Registration Agreement”) with holders of registered names (“Registrant”), in addition to those terms and conditions required under the Agreement, provisions requiring Registrants:

- 1.** To comply with all applicable laws, including those that relate to privacy, data collection, consumer protection (including in relation to misleading and deceptive conduct), fair lending, debt collection, organic farming, disclosure of data, and financial disclosures;
- 2.** To notify Registrants at the time of registration of the requirements to comply with all applicable laws; and
- 3.** Who collect and maintain sensitive health and financial data to implement reasonable and appropriate security measures commensurate with the offering of those services, as defined by applicable law.
- 4.** To provide administrative contact information, which must be kept up-to-date, for the notification of complaints or reports of registration abuse, as well as the contact details of the relevant regulatory, or industry self-regulatory, bodies in their main place of business;
- 5.** To represent that the Registrant possesses any necessary authorizations, charters, licenses and/or other related credentials for participation in the sector associated with this TLD; and
- 6.** To report any material changes to the validity of the Registrant’s authorizations, charters, licenses and/or other related credentials for participation in the sector associated with the TLD to ensure the Registrant continues to conform to the appropriate regulations and licensing requirements and generally conduct their activities in the interests of the consumers they serve.
